BRYAN AND HANNA.

The Campaigners Continue Their Work In This State.

NEBRASKAN VISITED NEWARK.

He Also Spoke at Mt. Vernon and Shawnee to Large Crowds—Hanna Given a Reception by the Cincinnati Chamber of Commerce and by Republicans.

CINCINNATI, Oct. 29.—The meetings of W. J. Bryan yesterday and last night were at Mt. Vernon, Newark and Shawnee, and were all largely attended. Mr. Bryan discussed the silver question at all his meetings and also reviewed the records of President McKinley and Senator Hanna. He said the first six months of the McKinley administration were the most disastrous in the history of the country. He charged Senator Hanna with hostility to labor interests and also with being the chief conspirator in the presidential campaign of last year, when the result was due to the twin agents of fraud and coercion and traceable to the money powers of this and other countries.

He said: "The gold standard was conceived in avarice, fastened upon the people by stealth, continued by fraud, and its high priest was Hanna." Mr. Bryan warned his hearers against frauds in Ohio. He said the Democrats got as many votes in Ohio last November as expected, but the Republicans got many more than there was any reason to expect.

Senator Marcus A. Hanna was tendered a reception yesterday at noon by the chamber of commerce in this city and in the afternoon given a public reception at the St. Nicholas hotel.

He was banqueted last night by the Republican committee. All of the Republican clubs of the city turned out to escort Senators Hanna and Burrows to Music hall, where they addressed a very large meeting. The seating capacity of the hall is 5,000. The standing room was all occupied and a large outside overflow meeting was addressed by local speakers. The parade of clubs was one of the largest ever seen here and the demonstration was unusually enthusiastic. Thomas McDougall, the intimate friend of President McKinley, presided, and introducing Senator Hanna eulogized him as the great organizer and defender of Republican principles. Senator Hanna expressed himself highly gratified with the situation in Ohio and especially with the interest manifested at the close of canvass in Cincinnati.

SHERMAN ON ELECTION ISSUES.

He Especially Urges Support of the Republican Ticket In Ohio.

WASHINGTON, Oct. 29.—For the first time since the beginning of the present campaign in Ohio, Secretary Sherman has published his views in the shape of a letter addressed to the editor of the Cincinnati Volksblatt, in answer to a request for his opinion. The secretary expressed regret that he cannot participate in the campaign, but since the time of Jefferson, secretaries of state have kept out of politics, and then says:

"I look upon the pending canvass in Ohio as a retrial of the issues involved in the election of 1896. State issues, if any, do not seem to be the subject of debate. Naturally the first issue is now whether the first administration of William McKinley is approved by the people of Ohio. Upon this question there ought to not be any difference of opinion. His prompt calling together the congress of the United States to provide requisite revenue for the support of the government and his recommendation of the prompt repeal of the feeble and indefensible tariff law known as the Wilson-Gorman law has met with general approval. The revival of all industries and the commencement of prosperity in all parts of the United States was the natural and necessary result of the action of the president and a Republican congress."

Secretary Sherman then reviews past legislation and says:

"It is the declared purpose of the Republican party to restore and maintain the policy embodied in the McKinley tariff and the recent tariff act, known as the Dingley tariff. It is unfortunate that the beneficial provisions of the latter act cannot be in full operation for a year or more, owing to excessive importations under the Wilson-Gorman act, but I confidently believe that within a year under the present law the revenue of the government will be ample to pay not only current expenditures, but a large sum in reduction of the public debt. To secure this desirable result the Republican party must be sustained not only in Ohio, but in the United States."

Secretary Sherman argues against the free coinage of silver and then says:

"Aside from this important measure the people of Ohio should bear in mind that one of the most eminent citizens of the state is now president of the United States. He is especially entitled to your kind and considerate favor and deserves praise for the careful selection and appointment of officers of the United States. There has been an abrupt haste in making changes, while from the nature of things he could not

appoint all who apply for office, yet the changes he did make met with and deserved the approval of the Republican party. It is impossible for any executive officer charged with the duty of appointment to meet the wishes of all. Many must be disappointed, but they will all concede that they have had a fair hearing, for no president could have given applicants more kind and patient attention, nor could any president have felt more keenly his inability to comply with the wishes of his friends.

"As to the issues of the future I can say with absolute confidence that in the future as in the past the mode of levying duties on imported goods and the free coinage of silver will be the dividing lines of the two parties. It may be that benefits of protection will be so apparent that the south, now already becoming a manufacturing community, and the west, filled with mineral resources of untold value, may be converted to the policy of protecting their industries by tariff laws. And it may be that the manufacturing industries of the east may become so strong as to oppose duties on raw materials, thus reversing their positions. This would be a change of position in the sections, but the issue would remain.

"As for the ticket that is presented by the Republican party, there ought to be no division of opinion among Republicans. Governor Bushnell has proved to be an excellent officer, has performed his duties to the entire satisfaction of the people, has been honest and faithful and deserves your hearty support. The election of legislature in Ohio is always important. Its action more directly affects the people of Ohio than even the action of congress.

"The election of a senator of the United States is involved in the election of a legislature. The only Republican candidate who is mentioned is Mark A. Hanna, who is now serving out the remainder of the term to which I had the honor to be elected. His wide experience as a businessman, his generous and kindly treatment of his employees, his sound judgment on all public questions of the day ought to secure for him the hearty support of every Republican member of the legislature. I will on Tuesday next, Providence permitting, go to Mansfield and contribute my vote not only for his election, but for the election of the entire Republican ticket."

DEFENDS UNION PACIFIC DEAL.

Ex-Attorney General Harmon Replies to Criticisms in a Statement.

CINCINNATI, Oct. 29.—Ex-Attorney General Harmon publishes today a signed statement in reply to recent criticisms regarding the proposed sale of the Union Pacific railroad. He reviews the action taken by Mr. Olney and himself and what was done under the Cleveland administration. He says the statement that the foreclosure of the government lien on the main line and of that on the Kansas line should have been in a single suit and that possible loss by breaking up the unity of the property might have been avoided by afterward consolidating the several suits is wholly unfounded.

As the property is in seven different states and judicial districts a separate suit had to be brought in each. The disadvantages of this to the government was plain from the start. Accordingly Mr. Olney and himself urged congress to provide for foreclosure of all the government liens in a single court, but the bills prepared for that purpose failed to pass.

NON-PARTISAN W. C. T. U.

SPRINGFIELD, Oct. 29.—The State Non-Partisan W. C. T. U. convention elected these officers: President, Mrs. H. M. Ingham, Jefferson; vice presidents, Mrs. E. C. Wade, Jefferson; Mrs. H. Harroun, Mansfield; Mrs. W. J. Sheppard, Cleveland; corresponding secretary, Mrs. F. E. Yound, Pittsfield; recording secretary, Mrs. R. C. Doolittle, Elyria; treasurer, Mrs. O. F. Carter, Elyria. Shelby next meeting place.

DODGE HONORED AGAIN.

Re-Elected President of the Society of the Army of the Tennessee.

MILWAUKEE, Oct. 29.—The second and last business session of the twenty-ninth annual meeting of the Society of the Army of the Tennessee was called to order by President Granville M. Dodge, in the hall of Wolcott post, G. A. R.

The old officers were re-elected as follows: President, G. M. Dodge; corresponding secretary, General A. Hick-enlooper; recording secretary, Colonel Cornelius Cadle; treasurer, General M. F. Force.

The following vice presidents were elected: Colonel J. Bell, Ohio; Major J. M. Warner, Missouri; Colonel B. T. Wright, Illinois; Captain John Crane, New York; General L. H. Hubbard, Minnesota; General G. H. Frederick, Nebraska; Captain O. C. Lademan, Wisconsin; Andrew A. Blair, Pennsylvania; Major Charles Christensen, California; Colonel J. W. McMurray, Florida; Lieutenant J. R. Dunlop, Indiana, and Captain M. E. Higby, Iowa.

Toledo was chosen as the next place of meeting.

Wolcott Gone to France.

LONDON, Oct. 29.—Senator E. O. Wolcott of Colorado, chairman of the United States monetary commission, has gone to Paris in the hope of prevailing upon the French government to agree to fresh bimetallic proposals. It is believed here, however, that the government of France will not do any thing further in the matter.

The Conference Productive of Splendid Results.

THREE NATIONS ABOUT AGREED.

Pelagic Sealing Likely to Be Stopped. Great Britain and Canada Expected to Acquiesce in Arrangement, Owing to Attitude of Other Countries Interested.

WASHINGTON, Oct. 29.—In reliable quarters it is stated that the conference between Russia, Japan and the United States, now proceeding here in reference to sealing in the Bering sea and the North Pacific, has advanced to an important stage and that a proposition has been reduced to writing, which, if accepted, will bring about a complete change in the sealing question. The proposition is said to be acceptable to the United States. It is understood to be acceptable similarly to the Russian delegates now here, but in view of the restrictions placed upon them by their credentials, it has been thought desirable to cable to St. Petersburg for final instructions.

The Japanese delegates are understood to have felt at first that the proposition would not be in their interest, but on fuller conference Mr. Fujita determined to cable the substance of the proposition to his government, accompanying it with a recommendation of its acceptance. Little doubt is entertained that Russia will accept the proposition, and, in view of Mr. Fujita's recommendation, it is believed that Japan also will join in it. The greatest secrecy is preserved in all official quarters as to the nature of the proposition, and it is not officially admitted that any proposition has been made. From equally reliable sources it is understood that the proposition has a far-reaching scope, and provides for the material limitation or entire suspension of pelagic sealing or sealing on the high seas.

Such a decisive step, if agreed to by Russia, Japan and the United States, would, it is understood, not involve any concerted move to menace the claims of Great Britain and Canada to the right of pelagic sealing on the high seas, but would rather be a proposition expressive of the conclusions of the three most interested powers that, in the interests of humanity and the preservation of the seal herds of their respective governments, all nations, including Great Britain and her colony, Canada, should unite with Russia, the United States and Japan in such effective prevention of pelagic sealing on the high seas as will put an end to it and thereby secure the preservation of the seals.

It was developed that Russia and England had a modus vivendi suspending pelagic sealing within 30 miles around the Russian islands, which expired Dec. 31.

It was clearly the desire of the Russian delegate to secure the largest possible protection for her fur seals, and this established, throughout the deliberations, a close co-operation between the United States and Russia.

As to Japan, it was not clear that her interests were for further restrictions on pelagic sealing. On the contrary, one of the Japanese delegates made it clear that Japan had more interest in catching seals than in preserving them. Moreover, it appeared that Japan no longer had any fur seals, although her possessions of sea otters, an animal like the seal, was considerable. When Japan's attitude was thus defined, the general feeling within the conference was that the United States and Russia were united in the view of protecting the seals by energetic measures, while Great Britain and Japan occupied substantially the opposite position. The Japanese delegates were finally convinced by experts that by protecting the seals their country would soon develop valuable seal herds. This was finally cabled to the Japanese government.

By Monday acceptance of the agreement by Russia and Japan are expected. When Great Britain finds the United States, Japan and Russia united to protect the seals, it is believed that country and Canada will then enter the agreement.

THE SHOOT.

Some Good Scores Are Being Made This Afternoon.

At the live bird shoot of the East Liverpool Gun club, at South Side park this afternoon, the birds were slow, the wind high, and the shooting good. Some shots from Pittsburg were in the race, and made local marks do their best. Scores were as follows:

First event, seven birds—Founts, 7; Bessemer, 7; Brothers, 4; "Duck," 4; "No. 44," 2; Atkinson, 7; Brunt, 5; Agner, 4.

Second event, seven birds—Founts, 4; Brunt, 7; "Duck," 5; "No. 44," 4; Atkinson, 5; Bessemer, 6; Brothers, 6; Agner, 4.

The shoot is still in progress.

Spain's Speedy Reply and Reforms in Cuba Very Pleasing.

WASHINGTON, Oct. 29.—The Spanish reply to Minister Woodford's note concerning Cuba was laid before the cabinet at the regular meeting today. It may be stated positively that the administration regards the note so far as its tenor is revealed by the abstract cabled by Mr. Woodford as being conciliatory and as not calculated to breed an issue.

It can also be stated that gratification is felt that the answer was forthcoming within so short a period of time after the delivery of Mr. Woodford's note, having regard to the intervention of the Spanish cabinet crisis and change. The acts already performed by the new cabinet towards a correction of some of the evils of which we complain in Cuba are regarded as an earnest of the intention of the Spanish government to faithfully carry out the entire reform program, and if there should be a speedy alleviation of the

ARMOR BOARD'S WORK.

Members Rushing to Have the Report Ready for Congress.

WASHINGTON, Oct. 29.—The naval armor board has returned to Washington from its trip south. The board visited Birmingham, Ala., Sheffield, Ala., Nashville, Chattanooga and Knoxville, Bristol in Virginia and Tennessee and Morristown, Tenn. The net result of the trip is a mass of statistical information exhibiting the varied resources of the southern localities as the site for an armor plant, if the government should determine to build one.

The board has settled down to hard work, for it is under orders to have its report ready for submission to congress when it meets early in December. There is no time to spare for more visits to other towns which aspire to the possession of the armor plant and to the many applications that are still flowing in a polite declination of the invitation is returned.

Mr. Fritz, the expert who was engaged to develop the details of the plant, in conformity with the request of congress, is working 15 hours a day with a force of six draftsmen.

ALLIANCE OF REFORMED CHURCHES.

Committee of Those Holding the Presbyterian System Met at Reading.

READING, Pa., Oct. 29.—The executive committee of the Alliance of the Reformed churches holding the Presbyterian system, having jurisdiction over the entire American continent, has been in session here. Rev. Dr. William Cochrane of Brantford, Ont., was elected recording secretary in place of Rev. Dr. David Waters, who died recently at Halifax.

Considerable business was transacted with reference to the meeting of the general alliance, embracing Europe and America, to be held in Washington, in 1899. Reports on foreign missions, home missions and Sunday schools were submitted and the business session was followed by a banquet.

FOREIGN MISSIONARY SOCIETY.

The Methodist Episcopal Ladies In Session at Denver.

DENVER, Oct. 27.—The twenty-ninth annual meeting of the executive committee of the Woman's Foreign Missionary Society of the Methodist Episcopal church is in session here. There are 35 delegates present, representing 11 branches of the society in various parts of the United States. Eleven missionaries to other countries are also in attendance. The first business of the opening session was the election of officers for the coming year as follows:

President, Mrs. C. D. Foss, Philadelphia; secretary, Mrs. J. T. Gracey, Rochester, N. Y. Several standing committees were also chosen.

National W. C. T. U. In Session.

BUFFALO, Oct. 29.—The W. C. T. U. National convention was called to order this morning. Fully 5,000 were present.

ADMINISTRATION GRATIFIED.

Spain's Speedy Reply and Reforms In Cuba Very Pleasing.

WASHINGTON, Oct. 29.—The Spanish reply to Minister Woodford's note concerning Cuba was laid before the cabinet at the regular meeting today. It may be stated positively that the administration regards the note so far as its tenor is revealed by the abstract cabled by Mr. Woodford as being conciliatory and as not calculated to breed an issue.

It can also be stated that gratification is felt that the answer was forthcoming within so short a period of time after the delivery of Mr. Woodford's note, having regard to the intervention of the Spanish cabinet crisis and change. The acts already performed by the new cabinet towards a correction of some of the evils of which we complain in Cuba are regarded as an earnest of the intention of the Spanish government to faithfully carry out the entire reform program, and if there should be a speedy alleviation of the

frightful condition of the unfortunate reconvictadoes in Cuba through a prompt revocation of Weyler's concentration order, it is felt that our government will have little further to ask.

WEYLER SAILS FOR SPAIN.

Volunteers Made a Demonstration In Havana This Afternoon.

HAVANA, Oct. 29.—General Weyler left Havana today on the Montserrat. He was accompanied only by his general staff officers and aides-de-camp. There were no other passengers on the steamer.

This afternoon, previous to the embarking of the general, there was a great popular manifestation in his honor. The volunteers, according to the program, took a prominent part in the demonstration.

GROVER HAS A BOY.

Princeton Undergraduates In a Postponed Bulletin State the Youngster Will Play Center Rush on the '16, '17, '18 and '19 Football Teams.

PRINCETON, N. J., Oct. 29.—A son was born to the household of Grover Cleveland, the former president of the United States, at noon yesterday. It is said that the newcomer resembles his parents in points of good health, but neither Mr. Cleveland nor the three family physicians will say anything in regard to the newcomer, other than he is getting along nicely and is a fine boy. All day Mr. Cleveland has received at his home callers who wished to pay their respects to him in honor of the occasion.

Some have congratulated the ex-president personally, but many preferred to leave their cards with congratulations and best wishes for mother and son. A great many telegrams of congratulations were received. Among the first to proffer congratulations by wire were Joseph Jefferson, E. C. Benedict, former Secretary Thurber and former Secretary Carlisle.

Princeton undergraduates have taken a great interest in the new Princetonian. The fact that a Cleveland heir was born was announced during the varsity practice yesterday afternoon. There was a large gathering of undergraduates on the field watching the varsity and scrub teams practice. When the announcement was made, three Princeton cheers were given for the boy, three for the mother and three more for the father. It is probable that the undergraduates will serenade former President Cleveland and his heir at some future date. On the college bulletin board in front of Reunion hall was posted this notice:

"Grover Cleveland, Jr., arrived today at 12 o'clock. Will enter Princeton with the class of 1916, and will play center rush on the championship football teams of '16, '17, '18 and '19."

The new baby's sisters are Ruth, Esther and Marion, whose ages are 7, 5 and 3 years.

ANDREE'S FRIENDS DEPRESSED.

A Whaling Crew Said to Have Seen His Balloon Floating in the Arctic.

CHRISTIANIA, Oct. 29.—Dispatches received here from the island of Vardo, in the Arctic ocean, off Finmark, which with Vardoebus, is the most northern fort in Europe, say the public there is fully convinced of the truth of the report that a whaling ship sighted Prof. Andree's balloon, floating, on Sept. 23, near Prince Charles' promontory, Spitzbergen. The news has caused considerable depression among the friends of Prof. Andree. Two expeditions will start to look for the balloon.

It can also be stated that gratification is felt that the answer was forthcoming within so short a period of time after the delivery of Mr. Woodford's note, having regard to the intervention of the Spanish cabinet crisis and change. It was clearly the desire of the Russian delegate to secure the largest possible protection for her fur seals, and this established, throughout the deliberations, a close co-operation between the United States and Russia.

As to Japan, it was not clear that her interests were for further restrictions on pelagic sealing. On the contrary, one of the Japanese delegates made it clear that Japan had more interest in catching seals than in preserving them. Moreover, it appeared that Japan no longer had any fur seals, although her possessions of sea otters, an animal like the seal, was considerable. When Japan's attitude was thus defined, the general feeling within the conference was that the United States and Russia were united in the view of protecting the seals by energetic measures, while Great Britain and Japan occupied substantially the opposite position. The Japanese delegates were finally convinced by experts that by protecting the seals their country would soon develop valuable seal herds. This was finally cabled to the Japanese government.

By Monday acceptance of the agreement by Russia and Japan are expected. When Great Britain finds the United States, Japan and Russia united to protect the seals, it is believed that country and Canada will then enter the agreement.

A Tammany Meeting Surprises the Ex-Chief.

RETIRED TO THE BACK OF STAGE.

He and Mayor Harrison, Who Spoke, Left Before Meeting Was Ended—Ex-Ambassador Eustis Made a Speech. George Attacking Judges.

NEW YORK, Oct. 29.—Tammany's supreme effort in the way of massmeetings was made last night. It brought out both home and imported speakers, among the latter being J. B. Eustis of Louisiana, formerly United States senator and later United States ambassador to France, and Carter Harrison, the young mayor of Chicago. The latter, who came with a band and 250 members of the Cook County Democratic Marching club, was the object of greater interest.

One of the most remarkable things that has ever occurred at a Tammany Hall meeting took place. Someone called for three cheers for Richard Croker. The response was a storm of hisses that swept over the hall. Not a

cheer was given, and the man who called for them thought he would try again. In a very loud voice he called again for three cheers for Richard Croker. There was a feeble response this time, but the cheers were drowned by hissing.

Croker heard the expressions of disapproval for himself and he retired to a seat far back on the stage.

Richard Croker and Mayor Harrison left before the meeting ended.

At the noonday George meeting the principal address was made by John Z. White, a single-tax advocate of Chicago and Populist candidate for congress at the last election. Mr. White spoke of Mayor Harrison of Chicago as the man who "by the grace of God and his father's death is the mayor of Chicago," and contended that Mayor Harrison did not represent the Democracy of the west or of Chicago. He declared that Mayor Harrison had betrayed the men who elected him, and that he ran as a traitor and sold out to the "gold bugs" and monopolists as soon as elected.

Henry George is supplying the greater part of the "ginger" that is being consumed in the municipal campaign. His allegations touching the integrity of the recognized chiefs of both the leading parties are exciting wide interest, though they are met by those most directly concerned with a showing of indifference. The most specific of Mr. George's allegations are that Roger A. Pryor paid Richard Croker \$15,000 for the judgeship; he now holds that \$22,000 was paid for a seat upon the bench for Judge Ingraham and that other judicial offices were made the object of barter by the so-called political bosses. The judges deny it.

If George is doing a great deal of talking, so are Tracy and Low, though the latter are less sensational and personal in their utterances. The only exception to the rule of volubility among the mayoralty candidates is Van Wyck, whose "star" speech, delivered before the Independence Hall Democracy, was limited to 10 words of commonplace acknowledgment of a hearty greeting.

In the event of the defeat of Seth Low, it will not be possible, in the light of the statement given out by the Citizens' Union Treasurer J. Kennedy Tod, to allege that the failure of the non-partisan movement was the result of inadequate financial support. More money has been contributed than needed, said to be about \$1,000,000 altogether.

WAS NOT HIS OWN CLOTHING

According to the Clothier From Whose Place the Garment Was Taken Last Saturday Night—The Accused Must Wait For a Hearing.

Last Saturday night someone stole a pair of trousers from the store of M. Feldman, and last night Charles McCleary was locked up, charged with the crime.

McCleary was seen loitering about the store at the time given, and when the theft was discovered the police were notified of the facts. Yesterday he was seen by Lyman Rinehart, a clerk in the establishment, and as the trousers he wore closely resembled the stolen property Officer Terrence was called and the man arrested while walking in Seventh street. He was taken to the store where it was found the trousers looked very much like the remainder of the suit. He was then locked up, but as Mayor Gilbert was compelled to go to Lisbon this morning, he will not be heard until tomorrow. McCleary said he had secured the trousers in Stenbenville, and declared he was innocent of the charge.

IN GOOD HOMES.

Superintendent Southworth Tells the Result of His Visit.

Mr. and Mrs. M. M. Southworth, occupying the berths of superintendent and matron at the Fairmount Children's Home, near Alliance, have returned home from their western trip and from visiting some 32 children who had been placed out by the superintendent. The children were found to be very happily situated, and surrounded by influences which are all that can be desired, and those in control of the Fairmount Home would be delighted could one and all of the children in their care be placed in like situations. The bright little colored girl, she who attracted so much attention while in the Home proper, is now located with kind-hearted people, and is a general favorite, making herself very useful, and she is as happy as the day is long. Surely the Fairmount Home, under the blessing of the Master, is an institution worthy of the warmest commendation.

THREE HUNDRED PEOPLE

Will Find Employment at the Toronto Pottery.

Said Secretary Wylie, of the Toronto pottery company, to a NEWS REVIEW reporter:

"We will be running our entire plant within the next week. Everything is in good shape, machinery all works perfect, and we are now waiting on clay. Three hundred people will be employed, and possibly more if all indications prove correct. The people of Toronto presented us with a handsome flag yesterday, to float above the works. We had steam up Monday, ready to work, but no clay arrived."

WELLSVILLE.

A STRANGE YOUNG MAN

Aroused the Eastern Part of Town Last Night

WITH A VERY THRILLING STORY

He Explained How He Had Escaped Three Highwaymen and Then Conveniently Disappeared—Another Football Team—Improvements at the Mill.

A mysterious young man aroused the eastern part of town last night with a story of adventure, and then conveniently disappeared.

It was early in the evening when the stranger appeared at the Sheet residence in Second street, and said that while driving between the county bridge and the street railway he was held up by three masked men who wanted his money. He struck his horse sharply, and succeeded in getting away although the men followed.

The police were notified at once and a crowd collecting offered to assist the stranger in finding the guilty parties. The young man consented and the search was commenced. When the officers arrived they wanted to know more particulars of the affair and inquired for the stranger, but he had disappeared. They searched the city for him, but he could not be found. No one can explain the happening.

Change at the Mill.

Not satisfied with the improvements already made at the rolling mill, Manager Everson has arranged for another important move.

Workmen are now busily engaged in erecting another sheet furnace. This is the first step in the direction of a new mill, which will give employment to another large force.

The mill is rushed with orders, and an immense amount of finished product is being turned out.

Want More Cars.

In the neighborhood of 350 Wellsville people work in East Liverpool, and every morning the cars are crowded. The crush at times is so great that passengers are compelled to stand. Many people believe that Manager Hoefgen would gladly add to the number of cars in use if he knew they were needed, and they realize that the cars are needed. More Wellsville residents are now working in Liverpool than at any other time in its history.

Another Team.

The football team of the Wellsville Athletic club will be reorganized and Gossett chosen captain. The lineup chosen to play Liverpool is Snediker, center; Hamilton and McSwiggen, guards; Burchard and Smith, ends; H. Brockett and Fisher, tackle; R. Brockett and Gossett, half backs; Davis, quarter; Simms, full back.

On Business.

Judge Boone was in town for a short time yesterday afternoon. While here he looked after some business connected with the probate court.

When the commissioners and Prosecutor Speaker were here yesterday afternoon they investigated a few complaints, but were only in town a short time.

Squealed a Scandal.

It is said that a scandal which would have aroused Wellsville and caused commotion in every home in the city came near becoming public property last week. It was only silenced by the earnest pleadings of an interested party and the intervention of several influential friends.

Home From Mexico.

Louis Lindsey, who has not been home for three years, has returned to Wellsville for a visit with relatives. He has been in Texas and Mexico, and has seen much of the world since he left this place.

An Operation.

Mr. Sutton, of Short street, went to Wheeling, today, where she was the principal figure in an important operation. The lady has been ill for some time, and the operation was a necessity.

Those highly desirable lots in the East End can be secured at the office of Attorney M. J. McGarry, at auction prices. Purchase while you can. Values are sure to advance heavily in a short time. Be wise, and make a richly paying investment.

WELLSVILLE.

A STRANGE YOUNG MAN

Aroused the Eastern Part of Town Last Night

WITH A VERY THRILLING STORY

He Explained How He Had Escaped Three Highwaymen and Then Conveniently Disappeared—Another Football Team—Improvements at the Mill.

A mysterious young man aroused the eastern part of town last night with a story of adventure, and then conveniently disappeared.

It was early in the evening when the stranger appeared at the Sheet residence in Second street, and said that while driving between the county bridge and the street railway he was held up by three masked men who wanted his money. He struck his horse sharply, and succeeded in getting away although the men followed.

The police were notified at once and a crowd collecting offered to assist the stranger in finding the guilty parties. The young man consented and the search was commenced. When the officers arrived they wanted to know more particulars of the affair and inquired for the stranger, but he had disappeared. They searched the city for him, but he could not be found. No one can explain the happening.

Change at the Mill.

Not satisfied with the improvements already made at the rolling mill, Manager Everson has arranged for another important move.

Workmen are now busily engaged in erecting another sheet furnace. This is the first step in the direction of a new mill, which will give employment to another large force.

The mill is rushed with orders, and an immense amount of finished product is being turned out.

Want More Cars.

In the neighborhood of 350 Wellsville people work in East Liverpool, and every morning the cars are crowded. The crush at times is so great that passengers are compelled to stand. Many people believe that Manager Hoogen would gladly add to the number of cars in use if he knew they were needed, and they realize that the cars are needed. More Wellsville residents are now working in Liverpool than at any other time in its history.

ANOTHER TEAM.

The football team of the Wellsville Athletic club will be reorganized and Gossett chosen captain. The lineup chosen to play Liverpool is Snediker, center; Hamilton and McSwiggen, guards; Burchard and Smith, ends; H. Brockett and Fisher, tackle; R. Brockett and Gossett, half backs; Davis, quarter; Simms, full back.

On Business.

Judge Boone was in town for a short time yesterday afternoon. While here he looked after some business connected with the probate court.

When the commissioners and Prosecutor Speaker were here yesterday afternoon they investigated a few complaints, but were only in town a short time.

Squelched a Scandal.

It is said that a scandal which would have aroused Wellsville and caused comment in every home in the city came near becoming public property last week. It was only silenced by the earnest pleadings of an interested party and the intervention of several influential friends.

Home From Mexico.

Louis Lindsey, who has not been home for three years, has returned to Wellsville for a visit with relatives. He has been in Texas and Mexico, and has seen much of the world since he left this place.

An Operation.

Mr. Sutton, of Short street, went to Wheeling, today, where she was the principal figure in an important operation. The lady has been ill for some time, and the operation was a necessity.

Those highly desirable lots in the East End can be secured at the office of Attorney M. J. McGarry, at auction prices. Purchase while you can. Values are sure to advance heavily in a short time. Be wise, and make a richly paying investment.

EAST LIVERPOOL, O., FRIDAY, OCT. 29.

REPUBLICAN TICKET.

Governor, Asa S. Bushnell.
Lieutenant governor, A. W. Jones.
Supreme Judge, Jacob A. Burkett.
Attorney general, Frank Monnet.
State treasurer, Samuel Campbell.
School commissioner, L. D. Bonebrake.
Member of Board of Public Works, C. A. Doddard.
For Senator, W. V. Blake.
For Representative, P. M. Ashford of Washington township.
For Treasurer, Charles E. Smith of Fairfield township.
For Sheriff, Charles Gill of Liverpool township.
For Commissioner, W. K. George of Madison township.
For Prosecutor, J. H. Brookes of Liverpool township.
For Infirmary Director, C. D. Filson of Center township.

THE Democratic rooster is being fattened for the sacrifice.

THE county Republican ticket will be elected. Its opponents only lack a strong organization, but their cause is one which has nothing to command itself to the people...

GENERAL GROSVENOR, the "Old Fingers" of Ohio, says Bushnell will be elected by a big majority and Hanna will have a majority of 49 on a joint ballot. The general seldom misses it.

THE closing days of the campaign see no cessation on the part of McLean and his workers. They know their cause is lost, but they will not give up the battle. Should the Republicans be less faithful?

TUESDAY'S election is important, because it will show the attitude of Ohio toward President McKinley. A rousing majority will mean that his administration receives the hearty endorsement of his own state.

CHAPMAN'S chances have gone with the campaign, but that should not influence the Republican voter. Let every man go to the polls next Tuesday and support the ticket of prosperity, and Chapman will have no chances at all.

STAND BY THE TICKET.
Go to the polls next Tuesday determined to stand by the party which stands by you. Do not forget that Democratic principle has been tried and found wanting, and a vote for one of the smaller parties is a vote that will count for nothing. Remember that the Democratic party promised much and gave nothing, while the Republican party brought prosperity from adversity and good times from an extended period of financial depression.

THE USUAL TALE.
Billy Bryan and his old song have returned to Ohio. The song is the song he sang a year ago, but Bryan has changed. The dash which came with the confidence of his first success has gone, and in its place there is a weariness that has been reflected in the face of every man who stood before him since he came to the state. As a campaigner Bryan may be successful in some parts of the country, but in Ohio he is far too well known to merit much attention.

DESPERATE.
The Democrats are desperate. They know they have no earthly chance of winning the election next week, and instead of swallowing the dose with the best possible ease they use such expressions as this:

"If we had free coinage of silver wheat would be two dollars per bushel—and then how debts would be paid!"

It is from the Lisbon Patriot, and while it does not say so in so many words, declares that Potts has given up the battle. No man, who believed victory was about to perch upon his banner would resort to slush of that particular kind. He would at least stick to the truth when he knew he could gain nothing by misrepresentation and falsehood. Extravagance of assertion is not always to be taken as an evidence of confidence.

EVENING NEWS REVIEW.

THIRTEENTH YEAR. NO. 122.

EAST LIVERPOOL, OHIO. FRIDAY, OCTOBER 29, 1897.

TWO CENTS

KING OF THE RAIL.

TWENTY-ONE LINES CONTROLLED BY ONE MAN.

Total Mileage of 50,550—Mr. J. P. Morgan's Word Is Law on Most of the Principal Lines—Anthracite Coal Roads Under His Control.

Nearly all the great trunk lines in America are now practically controlled by the great New York financier, J. Pierpont Morgan. It is the most colossal combination of capital on record. Within a short time all the avenues and outlets of this country to the sea will be directed by one man and one mind.

It is a consummation of a scheme that has engaged the attention of our great railroad magnates for some time past. Since the enactment of the interstate commerce law railroads have been unable to maintain rates. Competition has forced them to keep the tariffs within comparatively reasonable limits, and it was impossible for them to earn enough money to pay dividends on their watered stock. Railroad traffic associations that were formed to secure the maintenance of high rates failed to do the bill, and when later on the pow-

J. PIERPONT MORGAN.

ers of those associations were enlarged so as to practically transform them into pools. The United States supreme court stepped in and declared such organization to be illegal.

The scheme of placing all these interests in the hands of J. Pierpont Morgan was suggested several years ago, when, discouraged by the constant violations of agreements to maintain tariff rates, the presidents of the various roads met on board of J. Pierpont Morgan's yacht in New York harbor and adopted the far famed "gentlemen's agreement." This was a pledge that any official, no matter how high in rank, should be promptly discharged if found violating an agreement.

Rates continued to be cut, however, just the same as if the presidents had not pledged their sacred word of honor that rates should be maintained.

On that occasion the suggestion was made that the leading railroad companies between New York and the Missouri river relinquish the financial control of their roads to the firm of J. Pierpont Morgan & Co., and that the officials of the various roads should be responsible for their conduct to J. Pierpont Morgan. The power thus placed in Mr. Morgan's hands, it was claimed, would enable him without much effort to whip recalcitrant roads into line.

The seed thus sown fell, however, upon fruitful ground. It has sprouted and grown until today the great consolidation scheme is found to be practically an accomplished fact, and J. Pierpont Morgan is the master mind who controls the roads.

No attempt will be made to get the Pennsylvania under his control. That this company will work in unison with his plans there is not the slightest doubt, as it is already doing so. The fight for the control of the Baltimore and Ohio has already commenced. Mr. Morgan will try to seize this road through foreclosure proceedings lately commenced. The stake is a magnificent one, as the acquisition of this road will remove the last obstacle in the way of Morgan's absolute control of all the railroads between Chicago and New York, Philadelphia and Baltimore.

The Vanderbilt roads have been controlled by Mr. Morgan ever since the death of William H. Vanderbilt. The illness of Cornelius, the head of the house, the disinclination for business of W. K. and the withdrawal from active business of George almost eliminate the Vanderbilt family from active participation in lines reaching New York, though they still hold in firm hands roads in the interior of New York.

Through the acquisition of the Lackawanna, Reading and Lehigh Valley roads Mr. Morgan also gains absolute control of the Pennsylvania anthracite coal mines, which makes him as powerful a factor in coal interests as in rail-

road interests of this country. Not only can he dictate what rates coal shall pay the railroads, but he can absolutely fix the price people must pay for their coal.

In the south Mr. Morgan is getting stronger from day to day. Lately he has achieved another victory in his project for the control of all the railroads and steamship lines in the southern states. He has won his long fight for the possession of the Central of Georgia railroad, which controls the ocean and New England steamship lines which ply between Savannah and New York, Boston and Philadelphia.

In the west and northwest the Morgan consolidation plan has not progressed quite so far as in the east. But a good start has been made here, and before long, judging by present indications, Mr. Morgan will as absolutely hold the destinies of the roads in the west and northwest in his hands as he does those of the roads in the east and south.—Chicago Tribune.

KLONDIKE TRAM RAILWAY.

Line Will Be Twenty-seven Miles In Length and Elevated Throughout.

A company with a capitalized stock of over \$1,000,000 has recently been organized in New York to build a tram railway over the Chilkat pass, Alaska. The new railroad is to be known as the Chilkat Railroad and Transportation Railroad company and will run for 27 miles through the most dangerous part of the pass.

The company was promoted by Mr. S. S. Bush of Louisville, who has been in the Klondike for the past several months, and who saw that such a railroad would be a paying investment. He traveled through the pass on foot and by water and laid out the plan by which the road is to be built. After figuring the cost of such a road he came to New York and began the organization of the stock company. Mr. H. C. Walls was elected president. A contract for the building of the road was recently let to the Trenton Iron company in Mr. Wall's name.

The Klondike road will be used principally for the transportation of baggage and freight. Cars will be put into service large enough to hold two persons, but at the start the company will not depend on the passenger traffic for much revenue.

The new road is to be a link to the road that is to be built from Dyea to Lake Lindeman and is to be elevated the entire distance. Elevating the road has been found necessary, as it covers a stretch over which it would be impossible to build a surface railway, on account of the snow and ice and the roughness of the path over which it is to travel.

According to the specifications, the tramway will be what is known as the Acme system and will be operated by steam power located at either end of the wire cable, along which the cars travel.—New York Journal.

THREE YEAR COURSE.

President Eliot of Harvard Advocates a Shorter Term of Study In Colleges.

President Eliot of Harvard college came out as an advocate of the three year college term recently at the twelfth annual meeting of the New England Association of Colleges and Preparatory Schools. Professor John H. Wright of Harvard first presented a paper in favor of the three year course. Professor Thomas D. Seymour of Yale presented an argument in favor of the retention of the four year term. President Eliot said, in upholding the argument of Professor Wright:

"I am an ardent advocate of the short term, and I do not believe that a reduction would affect the thoroughness of the study or make men less able to take up their life work. Our opponents have said that we should not do this because the secondary schools were on too feeble a basis for college training. Any one who has been observant of educational affairs must have seen that in the last seven or eight years the secondary training of youth has been greatly increased in value. In fact, that is the most remarkable thing in teaching I have ever noted in all my professional career. Professional teaching has ceased to be merely a bread and butter, low motive affair and is higher in every sense."

"The professional departments of Harvard are by far the best in the university for power of their men. The college can no longer be considered the sole representative of liberal education. I believe the hope of America depends upon this reduction."—New York Sun

Two Influences.

Young Man—That was an excellent paper your daughter read on the "Influence of Science as Applied to Practical Government."

Wearied Father—Yes; Julia is the pride of her class, and now that she has mastered the "Influence of Science as Applied to Practical Government" I hope that she will be able to find out something concerning the "Influence of the Broom as Applied to the Kitchen Floor."—London Fun.

TEMPTED AND FELL.

WALTER WYCKOFF'S EXPERIMENT AMONG THE TOILERS.

From the Advance Sheets of Scribner's Magazine For November The Young Man Out of a Job Gets Intoxicated With Books.

Mr. Walter A. Wyckoff, the young Princeton graduate and man of means who undertook to solve the problem of the unemployed by actual experience as a common laborer, continues his story in the November Scribner's Magazine. An extract follows:

By this time I had neared the post-office, and I found letters awaiting me there which claimed the next half hour. But even more embarrassing, as a check to further search, was a "free reading room," which now invited me to files of New York newspapers, in which I knew that I should find details of recent interesting political developments at Rochester and Saratoga, not to mention possible fresh complications in the more exciting game of politics abroad. I went in, and, like Charles Kingsley's young monk, Philemon, who, wandering one day farther than ever before from the monastery in the desert, chanced upon the ruins of an old Egyptian temple, and, mindful of a warning against such seductions, yet guiltily charmed by the rare beauty of the frescoes, prayed aloud, "Lord, turn away mine eyes, lest they behold vanity," but looked nevertheless—I looked, too, and read on until mounting remorse robbed the reading of all pleasure and drove me to my task again.

But I had fallen once, and by a sad fatality scarcely had I renewed the search, with weakened powers of resistance, when I stumbled upon a fiercer temptation in the form of a library which announced in plain letters its freedom to the public until the hour of 9 in the evening.

Forgetful of my character as a workman, miserably callous to the claim of duty to find employment, if possible, and in any case to live honestly the life which I had assumed, I entered the wide open, hospitable doors and was soon lost to other thought, and even to the sense of shame, in the absorbing interest of favorite books.

In the lonely tramp across the mountains of Pike county I walked sometimes for miles with no opportunity of quenching a growing thirst, when suddenly I came upon a mountain spring that trickled from the solid rock and formed a pool in its shade, where I threw myself on the ground, and, with a glorious sense of relief, drank deeply of its cold water. The analogy is a weak one, for the physical relief and the momentary pleasure but faintly suggest the prolonged intellectual delight after two months of unslackened thirst.

Here was an inexhaustible supply, and there were polite librarians, who responded cheerfully to your slightest wish, and, best of all, there was an inner door which disclosed a reading room, where perfect quiet reigned and comfortable chairs invited you to gratefully ease, and shelves on shelves of books were free to your eager hand.

To pass from one writer to another among the volumes that lay on the table, lingering over long loved passages or dipping lightly here and there, absorbing pleasure from the very touch of the book and the sight of the well printed page, charmed by some characteristic phrase, as when George Eliot describes a crucifix as "the image of a willing anguish for a great end."

Ah, what delights can equal those?

That stir the spirit's inner depths?

What, indeed, unless it be to sink into the folds of an easy chair, with a hitherto unseen edition of Tennyson in six volumes, new and beautiful, a fit setting for the verse of that great master, whom Mr. Andrew Lang has lately called, with the glow of a true enthusiasm, "the sweetest and strongest, the most exquisite, the most learned and the most Virgilian of all our modern poets"—to catch once more the pure, rich melody of his music as he sings from "the midmost heart of grief" or mounts to the abounding ecstasy of the "hungry heart," to whom life piled on life were all too little—old passages, worn by wont and use to little meaning, but returning now to my craving sense with the freshness of their first awakening power!

And, last and best of all, to reach an Iliad from its shelf and lose myself in strong delight in "matin songs that woke the darkness of the planet," songs of rich, abundant life, when the world was young and men were heroes all and knew their vital kinship with the gods, and with the living springs and fragrant flowers, and with the singing birds and snow white sheep, and life moved forward in the strength of great passions that make men, and "in the glorious might of heaven born freedom" men grew to nature's strength and

beauty and never knew the yoke of long tradition nor the load of custom that "lies upon us with a weight heavy as frost and deep almost as life."

And now the noise of battle rose in that incomparable hexameter, and "three times the bravest of the Greeks attacked the walls of Troy, there by the fig tree near the Scaian gates where the city lies lowest, led on by Ajax and Idomeneus, by the two Atridae and Tydeus' son, whether some cunning seer taught the craft of their own spirits stirred and drove them on!" And, clang in horrid discord with the clash of arms, there broke suddenly the sound of slamming shutters, which was the janitor's signal for 9 o'clock, the hour of closing for the night.

Taking my hat and stick, I walk out into the gas lit street and into our modern world so different from the past, with its artificialities and its social and labor problems, and I remember that I am a proletaire out of a job and that

with shameless neglect of duty I have been idling through priceless hours. Crestfallen, I hurry to my boarding house, longing, like any conscience stricken inebriate, to lose remorse in sleep.

As I walk to my lodgings a certain fellow feeling warms me with fresh sympathy for my kind. I have met with my first reverse, not a serious one, but still the search for work, for the first time in my experience, has been fruitless through most of a morning. Instead of persevering industriously, I yield weakly to the desire to forget my present lot and the duty it entails in the intoxication that beacons to me from free books. That happens to be my temptation, and I fall. Another workman of my class in precisely my position encounters not one chance temptation which he might escape by taking another street, but at every corner open doors that invite him to the companionship of other men who will help him to forget his discouragement so long as his savings last, and as we are both turned into the street at night in what do we differ as regards our moral strength? He yielded to his temptation and I to mine.—Advance Sheets of Scribner's Magazine For November.

His Own Recommendation.

When J. W. Sherwood, now general superintendent of the Clover Leaf, was superintendent of the Big Four, he had to discharge a brakeman for violation of the rules. The man hung about the office asking for a letter of recommendation. To get rid of him Mr. Sherwood told W. A. Sullivan, who was his chief clerk, to write the letter. This Mr. Sullivan did. The man went out and returned in half an hour.

"What's the matter now?" asked Mr. Sherwood.

"That letter you gave me is all right, isn't it?"

"Of course it is. That ought to get you a job anywhere."

"Well, I wish you would read this letter of recommendation I've got, Mr. Sherwood, and give me a job."

Sherwood took the letter on which his own name was hardly dry, read it carefully and remarked:

"I am well acquainted with Sherwood, and any one he recommends must be all right. You report to the trainmaster and tell him to put you to work."

Coming Fiction Heroes Will Be Patriots.

"Patriotism of the right sort will be the master passion of the coming hero," writes Droch of "Heroes In Fiction" in The Ladies' Home Journal. "It furnishes an endless scope for the highest kind of courage combined with that mastery of men that is leadership. And yet how seldom does it creep into current fiction, except in the spurious garb of rhetorical bluster or the melodramatic account of physical heroism in battle!"

There have been many attempts in American stories to depict the perversion of patriotism that shows itself in ring politics and corruption, but the plain citizen, doing his duty simply and at a sacrifice, is hardly alluded to. And yet the country is filled with him, as has been shown in every supreme test of its temper on a moral issue. As Lincoln often said, you can always count on the "plain people." Perhaps if more ideals of citizenship were depicted in popular fiction there would be more of the real thing in actual life."

Gems Found In a Sewer.

Four diamond rings worth \$1,800, owned by Mrs. Caldwell, a guest of the Strathhaven inn, Swarthmore, Ga., were recently carelessly left on a stand in the bathroom wrapped in tissue paper. A servant threw the paper in the sink. All the water pipes connected with the bathroom were torn out and examined. As a last resort the waste pipe emptying into Crum creek was examined, and in a section of this pipe only a few yards from the creek the valuables were located. They were found with the water soaked tissue paper wrapped tightly around them.—Chicago Times-Herald.

A CONTEST FOR THE WORLD'S BILLIARD CHAMPIONSHIP.

Ives, Schaefer and Slosson Are to Contest—The Eighteen Inch Balk Line the Style of Play Stipulated—Tournament to Be Held In New York.

The world's most expert billiard players are to contest for the championship within two months, and the battle will be fought in New York city. Frank C. Ives, the champion; Jacob Schaefer, the wizard, and George Slosson, the student, are to meet again in the game of delicate stroke and wonderful skill. It is not improbable Maurice Daly will also shy his cue into the game, and the contest is open to any one desirous of matching masses, draws and spreads with the artists mentioned.

The question of a tournament has been discussed for many weeks, but it failed to crystallize till recently, when

George Slosson was offered a purse of \$1,250 for a sweepstakes tournament for the championship of the world.

Eighteen inch balk line is the style of play stipulated, and the tournament will take place in New York the latter part of November or the first of December.

The net gate receipts in addition to the purse, will be divided on the basis of 50, 30 and 20 per cent.

A championship trophy will be presented by the company.

While many of the details are yet to be arranged, the fact of a tournament is assured, and New York lovers of the game will see the masters of the cue again in competition.

Frank Ives stated he was anxious to enter a tournament and unless one was arranged soon he would go back to Europe. Therefore the champion's entry is certain.

There is small doubt of Jacob Schaefer taking the opportunity for another brush with the Napoleon.

George Slosson was knocking the balls about in his rooms in New York when a reporter asked him if he would enter.

"Certainly," was his reply. "Count me in sure. I have recently returned from the country and am out of practice, but I'll try to get in trim. I'm glad to see a tournament arranged."

Maurice Daly said he could not say whether he would enter until he learned the full details. He might possibly take a chance. He also was pleased with the idea of a tournament.

In addition to the tournament in New York a purse would also be offered for a handicap tournament for the short stops, to take place in Chicago after the New York event.

Ed McLaughlin, now in charge of the Hoffman House room, said he would enter the latter.

Admirers of billiards were very enthusiastic over the prospect of a great contest.—New York Journal.

INDIANS MAY COLONIZE.

Their Intention Is to Arrange an Independent State In Mexico.

The colonization of all the full bloods and a large portion of half breeds and other citizens of the Indian Territory in old Mexico or South America is no iridescent dream.

The leading men in the move recently said that the understanding between the Creeks, Choctaws and Cherokees—that is, the full bloods—was complete, and that the Chickasaws and Seminoles would be consulted soon on the matter.

"Communication is quietly going on between our people and the Mexican government at present, with flattering prospects," said one of them. "Our intention is to arrange to have an independent state in that republic—an Indian state, in other words. Now, this all depends on what action congress will pursue toward our people. If that body forces us into a territorial government under United States laws altogether and sets aside our self government, guaranteed to us by solemn treaty, and allots our lands—all contrary to laws and treaties—then you will see us pull up stakes, sell all we have here and land in Mexico, Central or South America."

EVENING NEWS REVIEW.

THIRTEENTH YEAR. NO. 122.

EAST LIVERPOOL, OHIO, FRIDAY, OCTOBER 29, 1897.

TWO CENTS

KING OF THE RAIL.

TWENTY-ONE LINES CONTROLLED BY ONE MAN.

Total Mileage of 50,550—Mr. J. P. Morgan's Word Is Law on Most of the Principal Lines—Anthracite Coal Roads Under His Control.

Nearly all the great trunk lines in America are now practically controlled by the great New York financier, J. Pierpont Morgan. It is the most colossal combination of capital on record. Within a short time all the avenues and outlets of this country to the sea will be directed by one man and one mind.

It is a consummation of a scheme that has engaged the attention of our great railroad magnates for some time past. Since the enactment of the interstate commerce law railroads have been unable to maintain rates. Competition has forced them to keep the tariffs within comparatively reasonable limits, and it was impossible for them to earn enough money to pay dividends on their watered stock. Railroad traffic associations that were formed to secure the maintenance of high rates failed to the bill, and when later on the pow-

J. PIERPONT MORGAN.

ers of those associations were enlarged so as to practically transform them into pools the United States supreme court stepped in and declared such organization to be illegal.

The scheme of placing all these interests in the hands of J. Pierpont Morgan was suggested several years ago, when, discouraged by the constant violations of agreements to maintain tariff rates, the presidents of the various roads met on board of J. Pierpont Morgan's yacht in New York harbor and adopted the far famed "gentlemen's agreement." This was a pledge that any official, no matter how high in rank, should be promptly discharged if found violating an agreement.

Rates continued to be cut, however, just the same as if the presidents had not pledged their sacred word of honor that rates should be maintained.

On that occasion the suggestion was made that the leading railroad companies between New York and the Missouri river relinquish the financial control of their roads to the firm of J. Pierpont Morgan & Co., and that the officials of the various roads should be responsible for their conduct to J. Pierpont Morgan. The power thus placed in Mr. Morgan's hands, it was claimed, would enable him without much effort to whip recalcitrant roads into line.

The seed thus sown fell, however, upon fruitful ground. It has sprouted and grown until today the great consolidation scheme is found to be practically an accomplished fact, and J. Pierpont Morgan is the master mind who controls the roads.

No attempt will be made to get the Pennsylvania under his control. That this company will work in unison with his plans there is not the slightest doubt, as it is already doing so. The fight for the control of the Baltimore and Ohio has already commenced. Mr. Morgan will try to seize this road through foreclosure proceedings lately commenced. The stake is a magnificent one, as the acquisition of this road will remove the last obstacle in the way of Morgan's absolute control of all the railroads between Chicago and New York, Philadelphia and Baltimore.

The Vanderbilt roads have been controlled by Mr. Morgan ever since the death of William H. Vanderbilt. The illness of Cornelius, the head of the house, the disinclination for business of W. K. and the withdrawal from active business of George almost eliminate the Vanderbilt family from active participation in lines reaching New York, though they still hold in firm hands roads in the interior of New York.

Through the acquisition of the Lackawanna, Reading and Lehigh Valley roads Mr. Morgan also gains absolute control of the Pennsylvania anthracite coal mines, which makes him as powerful a factor in coal interests as in rail-

road interests of this country. Not only can he dictate what rates coal shall pay the railroads, but he can absolutely fix the price people must pay for their coal.

In the south Mr. Morgan is getting stronger from day to day. Lately he has achieved another victory in his project for the control of all the railroads and steamship lines in the southern states. He has won his long fight for the possession of the Central of Georgia railroad, which controls the ocean and New England steamship lines which ply between Savannah and New York, Boston and Philadelphia.

In the west and northwest the Morgan consolidation plan has not progressed quite so far as in the east. But a good start has been made here, and before long, judging by present indications, Mr. Morgan will absolutely hold the destinies of the roads in the west and northwest in his hands as he does those of the roads in the east and south.—Chicago Tribune.

KLONDIKE TRAM RAILWAY.

Line Will Be Twenty-seven Miles In Length and Elevated Throughout.

A company with a capitalized stock of over \$1,000,000 has recently been organized in New York to build a tram railway over the Chilkat pass, Alaska. The new railroad is to be known as the Chilkat Railroad and Transportation Railroad company and will run for 27 miles through the most dangerous part of the pass.

The company was promoted by Mr. S. S. Bush of Louisville, who has been in the Klondike for the past several months, and who says that such a railroad would be a paying investment. He traveled through the pass on foot and by water and laid out the plan by which the road is to be built. After figuring the cost of such a road he came to New York and began the organization of the stock company. Mr. H. C. Walls was elected president. A contract for the building of the road was recently let to the Trenton Iron company in Mr. Wall's name.

The Klondike road will be used principally for the transportation of baggage and freight. Cars will be put into service large enough to hold two persons, but at the start the company will not depend on the passenger traffic for much revenue.

The new road is to be a link to the road that is to be built from Dyea to Lake Lindeman and is to be elevated the entire distance. Elevating the road has been found necessary, as it covers a stretch over which it would be impossible to build a surface railway, on account of the snow and ice and the roughness of the path over which it is to travel.

According to the specifications, the tramway will be what is known as the Acme system and will be operated by steam power located at either end of the wire cable, along which the cars travel.—New York Journal.

THREE YEAR COURSE.

President Eliot of Harvard Advocates a Shorter Term of Study In Colleges.

President Eliot of Harvard college came out as an advocate of the three year college term recently at the twelfth annual meeting of the New England Association of Colleges and Preparatory Schools. Professor John H. Wright of Harvard first presented a paper in favor of the three year course. Professor Thomas D. Seymour of Yale presented an argument in favor of the retention of the four year term. President Eliot said, in upholding the argument of Professor Wright:

"I am an ardent advocate of the short term, and I do not believe that a reduction would affect the thoroughness of the study or make men less able to take up their life work. Our opponents have said that we should not do this because the secondary schools were on too feeble a basis for college training. Any one who has been observant of educational affairs must have seen that in the last seven or eight years the secondary training of youth has been greatly increased in value. In fact, that is the most remarkable thing in teaching I have ever noted in all my professional career. Professional teaching has ceased to be merely a bread and butter, low motive affair and is higher in every sense.

"The professional departments of Harvard are by far the best in the university for power of their men. The college can no longer be considered the sole representative of liberal education. I believe the hope of America depends upon this reduction."—New York Sun

TEMPTED AND FELL.

WALTER WYCKOFF'S EXPERIMENT AMONG THE TOILERS.

From the Advance Sheets of Scribner's Magazine For November The Young Man Out of a Job Gets Intoxicated With Books.

Mr. Walter A. Wyckoff, the young Princeton graduate and man of means who undertook to solve the problem of the unemployed by actual experience as a common laborer, continues his story in the November Scribner's Magazine. An extract follows:

By this time I had neared the post-office, and I found letters awaiting me there which claimed the next half hour. But even more embarrassing, as a check to further search, was a "free reading room," which now invited me to files of New York newspapers, in which I knew that I should find details of recent interesting political developments at Rochester and Saratoga, not to mention possible fresh complications in the more exciting game of politics abroad. I went in, and, like Charles Kingsley's young monk, Philemon, who, wandering one day farther than ever before from the monastery in the desert, chanced upon the ruins of an old Egyptian temple, and, mindful of a warning against such seductions, yet guiltily charmed by the rare beauty of the frescoes, prayed aloud, "Lord, turn away mine eyes, lest they behold vanity," but looked nevertheless—I looked, too, and read on until mounting remorse robbed the reading of all pleasure and drove me to my task again.

But I had fallen once, and by a sad fatality scarcely had I renewed the search, with weakened powers of resistance, when I stumbled upon a fiercer temptation in the form of a library which announced in plain letters its freedom to the public until the hour of 9 in the evening.

Forgetful of my character as a workman, miserably callous to the claim of duty to find employment, if possible, and in any case to live honestly the life which I had assumed, I entered the wide open, hospitable doors and was soon lost to other thought, and even to the sense of shame, in the absorbing interest of favorite books.

In the lonely tramp across the mountains of Pike county I walked sometimes for miles with no opportunity of quenching a growing thirst, when suddenly I came upon a mountain spring that trickled from the solid rock and formed a pool in its shade, where I threw myself on the ground, and, with a glorious sense of relief, drank deeply of its cold water. The analogy is a weak one, for the physical relief and the momentary pleasure but faintly suggest the prolonged intellectual delight after two months of unslackened thirst.

Here was an inexhaustible supply, and there were polite librarians, who responded cheerfully to your slightest wish, and, best of all, there was an inner door which disclosed a reading room, where perfect quiet reigned and comfortable chairs invited you to grateful ease, and shelves on shelves of books were free to your eager hand.

To pass from one writer to another among the volumes that lay on the table, lingering over long loved passages or dipping lightly here and there, absorbing pleasure from the very touch of the book and the sight of the well printed page, charmed by some characteristic phrase, as when George Eliot describes a crucifix as "the image of a willing anguish for a great end."

Ah, what delights can equal those! That stir the spirit's inner depths?

What, indeed, unless it be to sink into the folds of an easy chair, with a hitherto unseen edition of Tennyson in six volumes, new and beautiful, a fit setting for the verse of that great master, whom Mr. Andrew Lang has lately called, with the glow of a true enthusiasm, "the sweetest and strongest, the most exquisite, the most learned and the most Virgilian of all our modern poets"—to catch once more the pure, rich melody of his music as he sings from "the midmost heart of grief" or mounts to the abounding ecstasy of the "hungry heart," to whom life piled on life were all too little—old passages, worn by wont and use to little meaning, but returning now to my craving sense with the freshness of their first awakening power!

And, clang in horrid discord with the clash of arms, there broke suddenly the sound of slamming shutters which was the janitor's signal for 9 o'clock, the hour of closing for the night.

Taking my hat and stick, I walk out into the gas lit street and into our modern world so different from the past, with its artificialities and its social and labor problems, and I remember that I am a proletaire out of a job and that with shameless neglect of duty I have been idling through priceless hours. BETTER IN NEW YORK

Trade Has Recently Showed an Improvement.

PRICES ARE NOT GOING UP

But on the Contrary Some Are Going Down—Overtime Continues to Be the Custom In the Potteries With a Strong Demand For Ware.

They are not so blue in New York as they were a week ago according to China, Glass and Lamps. It says:

"Crockery dealers are doing a very fair business, the demand for ordinary goods marked at a low price being much improved. The Trenton and East Liverpool factories are well represented here. The agents report an improved tendency which grows more marked day after day. The new tariff has already had a most encouraging effect and the prospects of manufacturers and dealers were never brighter than they are at present. At the same time the cost of goods to the customer has not increased but, on the contrary, has been in some lines materially reduced as a result of the change in duties."

Of the trade in general the paper says: "The conditions with regard to the pottery business are strong and the outlook is satisfactory. Overtime continues to be worked at many of the potteries and is required by the exigencies of current demand. There is an abundance of orders for early shipment and many booked for future delivery besides. A good many buyers have been in the market looking for holiday assortments recently and the call for decorated ware and novelties has been stimulated accordingly. There is no apprehension of a let down in this branch of industry as jobbers' stocks are as yet by no means large, and they will have to make considerable requisitions soon in order to keep them in assortment by the way the retail trade is picking up."

WANT A SIDEWALK.

People in the Upper Part of Town Seek Recognition.

The absence of anything like a sidewalk along Huston road between Walnut and Avondale streets, has aroused the people of the upper part of the city, and they are looking for councilmen who will attend to their wants.

They remember that last year and the year before and for a good many years before that time they were compelled to wade through mud every time they went down town. Once a walk was made along Huston road, but while it answered the purpose in summer it was a long streak of mud in winter.

Avondale people are especially anxious to have the improvement made since that is by far the easiest way they have of reaching town. They think council should take the matter in hand, and see that they are not shut out from the city.

The bowl at the Diamond pump should be cleaned.

But little attention was given the fountain during the summer, and in that time the bowl has become so filthy that it attracts a great deal of attention. Many remarks are heard every evening, and wonder is expressed that the committee do not take the matter in hand.

FOR CHRISTIAN SERVICE.

Mr. Moody's School at East Northfield Has Many Young Women In Training.

The Northfield (Mass.) Training school is at present the youngest of the four institutions started by Mr. Moody for making men and women better.

In his correspondence with ministers complaint was continually made that trained workers in the church and Sunday schools of the cities and country towns alike were difficult to secure. It had been the theory that almost any one could teach a Sunday school class or do Sunday school visiting, but that belief is rapidly dying out. In order to supply the growing need for young women competent to do successful work the Northfield Training school was founded by Mr. Moody and his friends in 1890 and began its work in October in the Hotel Northfield. It still occupies this building during the fall and winter months. The hotel accommodates about 100 students and is admirably adapted to such use.

The object of the school is to train Christian women to become skillful and effective workers in all forms of Chris-

DWIGHT L. MOODY.

tian service, from the simplest in the home church to the varied demands of mission work at home or in the foreign field. The most effectual means to this end is a thorough and ready knowledge of the word of God and its practical use, and for this purpose the school was founded. In order that the students may be "thoroughly furnished unto every good work," courses in plain sewing, dressmaking and plain cooking are combined with the courses in Bible study. In addition to these, courses in drawing, music and physical culture have been arranged.

Miss Alice E. Bird has been the principal of the training school for several years. She is admirably adapted for this position and has done much to build it up. Bible study is the prominent feature of the training school. The aim in all the classes is to develop and deepen the spiritual life of the students and to teach them how to use the Bible in winning souls to Christ. A series of lectures on hygiene, first aid to the injured and the fundamental principles of nursing is given each year.

Students from this school have entered the following lines of work: Ordained pastors of churches, superintendents and teachers in training schools and home and foreign missionaries.

Others have been instrumental in the inauguration of evangelistic work in neglected country districts, the opening of churches long closed and the organization of new churches, Sunday schools and Christian Endeavor societies. Others have become Young Women's Christian association workers, pastors' helpers, teachers of sewing and cooking, matrons of children's homes, or have taken up various lines of work for which the combination of Bible and industrial training has given them special fitness.

Poor Soul! Poor Devil!

Our enemies (when we are old)—and who is without them?—no longer annoy us. Indeed, they have ceased reviling. To whom we are as dead men, "out of mind." To whom the proverb de mortuis applies. And our friends are twice out friends. No one who is not "laid by" can understand the depths of human sympathy. Even our acquaintances become our friends, and the least soft hearted of visitors murmurs to himself, "Poor soul!" or perhaps (with equal commiseration), "Poor devil!" What is most curious is the interest, if we have in any way become known to the public at large, complete strangers take in our physical and mental condition.

If prescriptions could cure us, we should be in rude health indeed. The materials are sometimes a little difficult to procure. I have seen a letter from New Zealand recommending an old gentleman suffering from rheumatic gout to bathe in whales. In that island whales, it seems, are occasionally thrown up on the seashore, when rheumatic patients hasten to lie in them during the progress of their evisceration for purposes of commerce. The extreme rarity of whales upon the Thames embankment seems to have been unknown to the writer. Some correspondents give most excellent sanitary advice, but too late for its practical application. An aged poet who had lost the use of his limbs was exhorted by an admirer to dig, "even if it were but in his back garden," for an hour or two every morning before breakfast. All that was wanted, he was assured, for complete recovery was "profuse perspiration followed by a healthy glow."—James Payn in Nineteenth Century.

BETTER IN NEW YORK

Trade Has Recently Showed an Improvement.

PRICES ARE NOT GOING UP

But on the Contrary Some Are Going Down—Overtime Continues to Be the Custom In the Potteries With a Strong Demand For Ware.

They are not so blue in New York as they were a week ago according to China, Glass and Lamps. It says:

Crockery dealers are doing a very fair business, the demand for ordinary goods marked at a low price being much improved. The Trenton and East Liverpool factories are well represented here. The agents report an improved tendency which grows more marked day after day. The new tariff has already had a most encouraging effect and the prospects of manufacturers and dealers were never brighter than they are at present. At the same time the cost of goods to the customer has not increased but, on the contrary, has been in some lines materially reduced as a result of the change in duties."

Of the trade in general the paper says:

"The conditions with regard to the pottery business are strong and the outlook is satisfactory. Overtime continues to be worked at many of the potteries and is required by the exigencies of current demand. There is an abundance of orders for early shipment and many booked for future delivery besides. A good many buyers have been in the market looking for holiday assortments recently and the call for decorated ware and novelties has been stimulated accordingly. There is no apprehension of a let down in this branch of industry as jobbers' stocks are as yet by no means large, and they will have to make considerable requisitions soon in order to keep them in assortment by the way the retail trade is picking up."

WANT A SIDEWALK.

People in the Upper Part of Town Seek Recognition.

The absence of anything like a sidewalk along Huston road between Walnut and Avondale streets, has aroused the people of the upper part of the city, and they are looking for councilmen who will attend to their wants.

They remember that last year and the year before and for a good many years before that time they were compelled to wade through mud every time they went down town. Once a walk was made along Huston road, but while it answered the purpose in summer it was a long streak of mud in winter.

Avondale people are especially anxious to have the improvement made since that is by far the easiest way they have of reaching town. They think council should take the matter in hand, and see that they are not shut out from the city.

ANOTHER OLD HORSE

Has Been Reported to the Humane Society.

The Humane society were notified last night that an old horse was suffering in a stable not far from the Burford pottery, and should be shot.

This complaint was followed by another, and Agent Lloyd decided that he would notify the owner of the animal, and if it was not aided prosecution would follow.

SHOULD BE CLEANED.

The Bowl at the Diamond Pump Is Dirty.

The bowl at the Diamond pump should be cleaned.

But little attention was given the fountain during the summer, and in that time the bowl has become so filthy that it attracts a great deal of attention. Many remarks are heard every evening, and wonder is expressed that the committee do not take the matter in hand.

A New Horse.

Barny, the horse used at the fire station and injured some time ago, is now being used in the patrol.

Some changes will no doubt be made in the future governing the places of the horses, and a new one will possibly be used in the wagon.

FOR CHRISTIAN SERVICE.

Mr. Moody's School at East Northfield Has Many Young Women In Training.

The Northfield (Mass.) Training school is at present the youngest of the four institutions started by Mr. Moody for making men and women better.

In his correspondence with ministers complaint was continually made that trained workers in the church and Sunday schools of the cities and country towns alike were difficult to secure. It had been the theory that almost any one could teach a Sunday school class or do Sunday school visiting, but that belief is rapidly dying out. In order to supply the growing need for young women competent to do successful work the Northfield Training school was founded by Mr. Moody and his friends in 1890 and began its work in October in the Hotel Northfield. It still occupies this building during the fall and winter months. The hotel accommodates about 100 students and is admirably adapted to such use.

The object of the school is to train Christian women to become skillful and effective workers in all forms of Chris-

DWIGHT L. MOODY.

tian service, from the simplest in the home church to the varied demands of mission work at home or in the foreign field. The most effectual means to this end is a thorough and ready knowledge of the word of God and its practical use, and for this purpose the school was founded. In order that the students may be "thoroughly furnished unto every good work," courses in plain sewing, dressmaking and plain cooking are combined with the courses in Bible study. In addition to these, courses in drawing, music and physical culture have been arranged.

Miss Alice E. Bird has been the principal of the training school for several years. She is admirably adapted for this position and has done much to build it up. SOME BIG TRANSFERS

J. E. McDonald Has Sold All His Interests

IN THE OHIO RIVER BRIDGE

He Has Also Disposed of His Stock In the East Liverpool and Rock Spring Street Railway and Is No Longer Connected with the Land Company.

Attorney J. E. McDonald, who organized the company which built the big bridge over the Ohio, and played a prominent part in the development of the Chester Land company, the East Liverpool and Rock Spring street railway and the pleasure resort at the terminus of that line, has disposed of his interests in those institutions and is no longer connected with any of them, although he still owns something over 200 acres of land on the Southside.

Mr. McDonald six years ago conceived the idea of building a bridge and opening up the land on the other side of the river to settlement. Times were good and he was not long in making headway. The project at once commanded itself to men of money and was developing well when the financial depression came on. The cyclone blew away every hope of a structure, and the plan was abandoned by everybody but Mr. McDonald. When the first company melted away he proceeded to organize another, and the project again moved forward, pushed by his indomitable will. Then came success. The people were coming out from under the shadow of poverty and confidence appeared on every hand. Bridge construction companies were anxious to take contracts without much thought of big profits, and the splendid truss-suspension bridge which now spans the Ohio from College street to the Virginia side was looked upon as a splendid investment, because times were hard when the contract was awarded.

With this project came others. Four hundred acres or more of land were purchased, and laid out in lots. Some were sold, but the greater part of the land was retained until such time as improvements and a constantly growing city on this side of the river should make it even more valuable. The property disposed of was taken by people who looked for investment, and while there have been few buildings erected, the success of the enterprise has never been questioned by property owners.

A portion of the land was known as Rock Spring, and when this came into the possession of the company it was decided to transform it into a summer resort. Handsome buildings were erected and the place made a model resort. The grounds were improved, and although the picnic season was well advanced before the place was opened to the public, thousands of people came to the city before the close of the season.

The street railway was another improvement, and was absolutely necessary in order that the crowds be moved. In all of these enterprises Mr. McDonald was a prominent figure, his every energy being devoted to the success of the different plans.

Recently a number of changes have come about. Mr. McDonald disposed of all his stock in the three corporations, and is not now financially connected with any of them. The bridge stock has been changing, and John Shrader, the contractor who built the structure, is now heavily interested in it. He has also purchased the shares of the other parties in the Chester Land company, and now owns every acre of the land and every dollar's worth of stock. Mr. McDonald also disposed of what he had in the street railway.

Mr. McDonald still owns about 200 acres of land on the Southside, the Mark's farm and another plat of ground. None of this is now on the market nor will it be for some time.

The announcement of the change will come with some surprise to many persons in the city. The transfer was made several days ago.

SECRET SOCIETIES BOOMING.

Many Orders In the City Are Flourishing.

Boom is the order of the hour in some branches of leading secret societies represented in the city.

A number of lodges have added to their membership lists during the week, and the prospects are better than they have been for a number of years.

The boom is not confined to organizations made up of men, but is spreading to the ladies' lodges, and they too are increasing in membership. Some secret societies of the city stood the hard times very well, but others suffered severely and are only beginning to regain their prestige.

THE CITY IS IN LUCK

New Viaduct Will Cost Us Nothing.

SOME VERY GOOD PROPOSITIONS

Were Made at the Meeting Yesterday Afternoon. When It Was Decided That the Street Railway and the County Should Act Together.

The handsome steel viaduct which will in the very near future span Jethro hollow, taking the place of the old wooden trestle, will be built by the county commissioners and the street railway company. It will not cost the city a cent.

Commissioners French, Bowman, Bye and Prosecutor Speaker talked the matter over with Manager John B. Hoefgen, Mayor Gilbert, Clerk Hanley, President Peach and Councilman Olnhausen for several hours yesterday afternoon, and when at 5 o'clock their labors were completed and the agreement reached, the visiting gentlemen left the city in order that they might reach Lisbon without delay.

Newspaper men were not admitted to the conference, but at its close the announcement was made that the bridge would be built, and the county and street railway would pay the bill. It will be of steel, with a roadway 18 feet wide, the street railway track and a walk six feet in width. A number of propositions were discussed, and the conclusion finally reached is much better for the city than if the first plan advocated by the authorities had been accepted.

The bridge will cost \$8,000, and will not only answer the purpose but will be a handsome structure. Manager Hoefgen has already had plans prepared, and it is probable those of the Penn Bridge company will be accepted. Work will be commenced as soon as possible. President Peach and the other city officials are greatly elated over the manner in which the controversy was settled.

The commissioners inspected a number of dangerous places along the Wellsville road and recommended that the township trustees make improvements, but having no money the trustees can not see how the work is to be done.

A MATTER OF PROPERTY.

It Will Be Decided In Court Very Soon.

LISBON, Oct. 29. — [Special.] — An action filed this morning asks the court to determine the rightful owner of certain Liverpool property.

The case was filed by Mrs. Isabella McCloskey against Joseph Hay and W. B. Hill, administrators of the estate of Luke Hay. Several years ago Hay, the father of Mrs. McCloskey, agreed that if she and her husband would build a house he would deed them the ground. The house was built and for several years the father lived with the plaintiff. Last August he died and in his will gave the property to Joseph Hay. Mrs. McCloskey fears her brother will take the property, and a temporary injunction was granted.

A marriage license was issued to J. L. Todd and Lilly V. Reeder, Adair.

WANTED JUSTICE.

A Steubenville Woman Sought It at City Hall.

Mrs. John Bell, of Steubenville, formerly of Wellsville, this morning called at the office of Mayor Gilbert for the purpose of getting some Liverpool justice.

She wanted a Wellsville girl arrested for entering her house in Wellsville and stealing some handkerchiefs, some aprons, a pocketbook and a number of potted plants. Mrs. Bell said the Wellsville authorities would do nothing with the case, and she was getting tired. Chief Johnson advised her to call when Mayor Gilbert was at home.

What a Whopper.

He claims to be a business man. He was made a committee of one to get some large cards printed. It was some time before he got the work done, and the members hurried him up. He finally appeared with a card which must have been got up by a boy, on a hickory hand press, with type and border out of date 20 years ago. He reported that he could not get the job done this side of Pittsburgh, and charged the association full one-third more than the job was worth. And now it is intimated that the miserable work was done in East Liverpool. This is not the first shady job this fellow has been engaged in. Selah.

HENRY GEORGE IS DEAD

He Passed Away With a Smile on His Face.

MADE SPEECHES LAST NIGHT

He Retired Without Complaint, but Early This Morning His Wife Was Awakened by Groans and Arose to Find Her Husband Dying.

NEW YORK, Oct. 29. — [Special] — Henry George, journalist and politician, and candidate for mayor of New York, died this morning at 5 o'clock.

Mr. George addressed a number of political meetings last night, and retired to his room at the Union Square Hotel, weary after the hard work, but he made no sign of complaint.

About 3 o'clock this morning Mrs. George was awakened by the moaning of her husband, and found him in a dying condition. A physician was hastily summoned, and Mrs. George and her son, Henry George Jr., gave every assistance possible, but the illustrious patient passed away at 5 o'clock with a smile on his face. Death was due to apoplexy.

The announcement of Mr. George's death created intense excitement in the city because of the influence it would have on the result of the mayoralty contest. It is believed that Low will have many of the votes that would have gone to Mr. George had he lived.

The church of the Holy Sepulcher, world renowned, will be shown Friday evening, Oct. 29, at the First M. E. church.

NO CHANGE IN THE BOND.

Joseph Deakin Is Still Held by the Original Document.

The bond of Joseph Deakin has not been changed, and the original bonds men are still held.

Yesterday afternoon Mayor Gilbert was given his choice of a \$1,000 bond furnished by the United States Surety company, of Baltimore, or a private bond, but he did not accept either. The bond will not be changed to \$2,000, as the power of Mayor Gilbert ended when he bound the prisoner over to court in the sum of \$1,000. He was also powerless to release Mr. Horwell from the bond without the consent of Mr. Deakin and his attorneys had they not been satisfied.

This position is taken from the fact that when the mayor binds a prisoner over to court and bond is furnished the case is entirely out of his hands, and the only person who can raise a bond or release a bondsman is the prosecuting attorney.

OVER A RAIL FENCE

THEIR HORSE HAD RUN AWAY

The Frightened Animal Dashed Down a
Hill Near Riverview Cemetery, and When
the Vehicle Struck a Stone Something
Happened.

Last evening about 5 o'clock Miss
Edessa Phillips and Miss Anna Thompson
figured in an exciting runaway.

The young ladies were driving, and
had reached the top of the Calcutta hill,
opposite the residence of W. R. McKin-
non, when their horse became frightened
and started to run away. Miss Phillips
lost all control of the horse and it dashed
down the steep grade near Riverview
cemetery at breakneck speed. When the
foot of the hill was reached the buggy
struck a large stone, and the vehicle and
ladies were thrown over the rail fence
into a field on the Anderson farm, leav-
ing the horse on one side of the fence
and the buggy on the other, and ef-
fectually checking the animal's flight.

Persons who witnessed the accident
expected to find the young ladies seri-
ously injured, but they were not hurt.
The only damage sustained was a badly
broken buggy.

WITH THE KODAK.

And We All Had a Jaunt In
Egypt.

A fine audience assembled at the First
M. E. church last night, attracted by the
announcement that the pastor, Dr. Hus-
ton, would deliver a lecture relative to
his trip throughout Egypt with a kodak.

Mr. T. J. Roberts pleased the audi-
ence in the earlier part of the evening
with a few selections on that wonderful
instrument, the graphophone, after
which Miss Goldie Weaver, organist for
the church, charmingly rendered a se-
lection on the superb organ.

The lecturer gave brief and compre-
hensive talk about Egypt and her
destiny, paying quite a compliment to
England as a side issue, and then started
on his trip to Egypt, giving a few views
of home and of New York, the high
seas, life on shipboard, and a number of
scenes along the coast. The views and
description of Egypt were highly enter-
taining and won much favorable com-
ment.

What We Say Is as Good as in Writing.

WE ARE NOT LIKE OTHERS, Buy up a lot of stuff,
hire large spaces in
the newspapers, beat drums, put up signs, and
make a big bluff on the people, advertising bargain
sales, and try and shove off a lot of "old shelf worn
out goods" at immense big prices.

But Alas! It DIDN'T WORK!

No more signs, no more sale. It has Sailed away like all other manu-
factured bluff sales, into oblivion.

When we purchased the Geo. C. Murphy stock, which is well known
to you as reliable, well made, and stylish goods, we did not change their
prices, or put on new tickets, but sold the goods at just ONE-HALF

Mental Maladies.

Within the memory of living men
there were physicians who held the
theory that mental disorders were in
the majority of cases nothing more or
less than viciousness, ugliness, or, to
use their favorite expression, "pure dev-
ilishness." The logical sequence of this
was something to be eradicated by chas-
tisement given in allopathic doses.
More than one sufferer has been merci-
lessly whipped and many another has
been chained and starved with the view
to exorcise the evil spirit that was pop-
ularly supposed to be the cause of all
the trouble. The starvation part of all
the treatment might have given favor-
able results, as extreme reduction of the
physical system often removes the clouds
from the mental, but cruelty or brutal-
ity is the worst possible remedy for affec-
tions of this nature, simply aggra-
vating and increasing them without the
faintest hope of benefit. Disturbances of
the psychic half of the human economy
are even more numerous and impor-
tant than those affecting the physical
and material.

One of the misfortunes of patients
who suffer from mental disorders is the
lack of appreciation of the grave nature
of their disease. Even eminent medical
men, especially those who are them-
selves in the enjoyment of robust health,
find it difficult to appreciate the more
delicate phases of nervous distress.
Merely a nervous attack means a great
deal more than the average person is
capable of understanding. The horrors
that cluster around even the milder
forms of insanity are such that the
merest shadow of mental disturbance
demands the most thorough and intel-
ligent treatment. Ministering to a mind
diseased is a phase of the physician's
work that is too little understood and
receives much less attention than its
importance warrants.—New York Led-
ger.

Toning Solutions.

The formulas for toning solutions are
almost without number, but the toning
process which gives the best results for
aristo papers—the papers most com-
monly used—is the one in which the
toning and fixing are done separately.
A favorite bath is made as follows:
Make a stock solution of 15 grains of
chloride gold and sodium (price, 40
cents) and 7½ ounces water and a satu-
rated solution of bicarbonate of soda.
A saturated solution is a liquid which
contains a little more of the substance
placed in it than it can dissolve and is
shown by a deposit at the bottom of the
bottle or vessel in which it is placed.
Mark the bottle containing the gold
"Gold Solution," and the bottle contain-
ing the soda "Bicarbonate of Soda
Solution." To make the toning bath
take one-half ounce of the gold solution
and add 3½ ounces of water. Dip a
piece of blue litmus paper into the solu-
tion, and if it does not turn the paper
red add a little more of the gold. Then
put in enough of the bicarbonate of soda
solution to turn the litmus paper back
to blue. The soda should be added a few
drops at a time and the mixture stirred
with a glass rod. Mix the bath half an
hour before needed for use. Place the
prints in this bath, and tone till nearly
the desired color. Rinse and place for
five minutes in a fixing bath composed
of an ounce of hyposulphite of soda and
8 ounces of water. Wash in running
water for half an hour.—Harper's
Round Table.

The Editor's Woes.

A New Jersey suburbanite tells this
one:

There is an editor in our little town
who just for the present wishes he were
somewhere else. Desiring to compi-
ment the schoolteachers of the place
and extend the circulation of his news-
paper among them, he wrote an elabo-
rate article, which he headed, "Pension
a Lot of Our Schoolteachers." He then
continued in an eloquent strain to de-
clare that "there are about a dozen of
the best known teachers in our schools
who, because of their long service in
the harness, should be pensioned im-
mediately." Of course the intelligent
compositor got in his work, and as the
old man failed to read his proof he was
horrified to find his paper declaring that
there were a lot of old schoolteachers
in that town who ought to be "poisoned"
immediately. The editor informs me,
with tears in his eyes, that this is
one of those unpleasant episodes which
occur to an editor now and then.—Hard-
ware.

The Winding Up of an Englishman.

It was a shrewd observation of one of
the keenest critics of the Anglo-Saxon
mind that ever lived, Cardinal New-
man, that it takes an immense time to
wind up an Englishman to the level of
a dogma—that is to say, to get him to
understand what a dogma is, what it
involves, what it necessarily asserts
and what it unavoidably denies. Often
when, after great toil, with pulleys and
hoists, encouragements in front and
goads behind, the Englishman's bullet
head slowly appears almost on the level
of the ground, something goes wrong
somewhere, and down he falls to the
very bottom of the pit, and the work
of winding him up has to be begun all
over again.—"The Law of Employers,"
by Augustine Birrell.

Miss Phillips lost all control of the horse and it dashed down the steep grade near Riverview cemetery at breakneck speed. When the foot of the hill was reached the buggy struck a large stone, and the vehicle and ladies were thrown over the rail fence into a field on the Anderson farm, leaving the horse on one side of the fence and the buggy on the other, and effectually checking the animal's flight.

Persons who witnessed the accident expected to find the young ladies seriously injured, but they were not hurt. The only damage sustained was a badly broken buggy.

WITH THE KODAK.

And We All Had a Jaunt In Egypt.

A fine audience assembled at the First M. E. church last night, attracted by the announcement that the pastor, Dr. Huston, would deliver a lecture relative to his trip throughout Egypt with a kodak.

Mr. T. J. Roberts pleased the audience in the earlier part of the evening with a few selections on that wonderful instrument, the graphophone, after which Miss Goldie Weaver, organist for the church, charmingly rendered a selection on the superb organ.

The lecturer gave a brief and comprehensive talk about Egypt and her destiny, paying quite a compliment to England as a side issue, and then started on his trip to Egypt, giving a few views of home and of New York, the high seas, life on shipboard, and a number of scenes along the coast. The views and description of Egypt were highly entertaining and won much favorable comment.

Tonight you can have the pleasure of seeing "Trudging through life with a kodak."

From Bad to Worse.

John Demmerling, who had his leg broken by falling on the pavement at the corner of Fifth and Washington streets, is slowly recovering, but is now suffering with a severe attack of pleurisy.

Looking After an Estate.

Rev. Wm. G. Whitaker, of Chester county, Nebraska, was in the city yesterday on business connected with the John Whitaker estate of London, which is estimated at \$100,000,000. Sexton Whitaker, of Riverview cemetery, is said to be one of the direct heirs.

May Reorganize.

The Monarchs did not practice last evening, but the eleven will practice tonight. There is some talk of reorganizing the team.

The Steubenville team want to play here tomorrow, but the game will not be booked.

Mental Maladies.
Within the memory of living men there were physicians who held the theory that mental disorders were in the majority of cases nothing more or less than viciousness, ugliness, or, to use their favorite expression, "pure devillishness." The logical sequence of this line of reasoning was that the infirmity was something to be eradicated by chastisement given in allopathic doses. More than one sufferer has been mercilessly whipped and many another has been chained and starved with the view to exorcise the evil spirit that was popularly supposed to be the cause of all the trouble. The starvation part of all the treatment might have given favorable results, as extreme reduction of the physical system often removes the clouds from the mental, but cruelty or brutality is the worst possible remedy for afflictions of this nature, simply aggravating and increasing them without the faintest hope of benefit. Disturbances of the psychic half of the human economy are even more numerous and important than those affecting the physical and material.

One of the misfortunes of patients who suffer from mental disorders is the lack of appreciation of the grave nature of their disease. Even eminent medical men, especially those who are themselves in the enjoyment of robust health, find it difficult to appreciate the more delicate phases of nervous distress. Merely a nervous attack means a great deal more than the average person is capable of understanding. The horrors that cluster around even the milder forms of insanity are such that the merest shadow of mental disturbance demands the most thorough and intelligent treatment. Ministering to a mind diseased is a phase of the physician's work that is too little understood and receives much less attention than its importance warrants.—New York Ledger.

Toning Solutions.

The formulas for toning solutions are almost without number, but the toning process which gives the best results for aristo papers—the papers most commonly used—is the one in which the toning and fixing are done separately. A favorite bath is made as follows: Make a stock solution of 15 grains of chloride gold and sodium (price, 40 cents) and $7\frac{1}{2}$ ounces water and a saturated solution of bicarbonate of soda. A saturated solution is a liquid which contains a little more of the substance placed in it than it can dissolve and is shown by a deposit at the bottom of the bottle or vessel in which it is placed. Mark the bottle containing the gold "Gold Solution," and the bottle containing the soda "Bicarbonate of Soda Solution." To make the toning bath take one-half ounce of the gold solution and add $3\frac{1}{2}$ ounces of water. Dip a piece of blue litmus paper into the solution, and if it does not turn the paper red add a little more of the gold. Then put in enough of the bicarbonate of soda solution to turn the litmus paper back to blue. The soda should be added a few drops at a time and the mixture stirred with a glass rod. Mix the bath half an hour before needed for use. Place the prints in this bath, and tone till nearly the desired color. Rinse and place for five minutes in a fixing bath composed of an ounce of hyposulphite of soda and 8 ounces of water. Wash in running water for half an hour.—Harper's Round Table.

The Editor's Woes.

A New Jersey suburbanite tells this one:

There is an editor in our little town who just for the present wishes he were somewhere else. Desiring to compliment the schoolteachers of the place and extend the circulation of his newspaper among them, he wrote an elaborate article, which he headed, "Pension a Lot of Our Schoolteachers." He then continued in an eloquent strain to declare that "there are about a dozen of the best known teachers in our schools who, because of their long service in the harness, should be pensioned immediately." Of course the intelligent compositor got in his work, and as the old man failed to read his proof he was horrified to find his paper declaring that there were a lot of old schoolteachers in that town who ought to be "poisoned" immediately. The editor informs me, with tears in his eyes, that this is one of those unpleasant episodes which occur to an editor now and then.—Hardware.

The Winding Up of an Englishman.

It was a shrewd observation of one of the keenest critics of the Anglo-Saxon mind that ever lived, Cardinal Newman, that it takes an immense time to wind up an Englishman to the level of a dogma—that is to say, to get him to understand what a dogma is, what it involves, what it necessarily asserts and what it unavoidably denies. Often when, after great toil, with pulleys and hoists, encouragements in front and goads behind, the Englishman's bullet head slowly appears almost on the level of the ground, something goes wrong somewhere, and down he falls to the very bottom of the pit, and the work of winding him up has to be begun all over again.—"The Law of Employers," by Augustine Birrell.

PROTEST TO PRESBYTERY

The Latest Development in Favor of the Minister Who Talked Holiness In His Presbyterian Church—Want Him Retained.

The last development in the case of Rev. J. H. Norris was not expected. The Pittsburgh Times of this morning says:

Rev. J. H. Norris, pastor of the Mt. Washington Presbyterian church, has converted to the doctrine of perfect sanctification a number of members of his congregation, including some of the officers, and a strong effort will be made to prevent his being deposed. Pittsburgh presbytery will hold a special meeting next Monday at the First church, Wood street, to hear the report of the committee appointed to investigate the affairs of the Mt. Washington church growing out of the holiness teachings of the pastor.

Charles H. J. Osborne and Thomas H. Hodgkiss, deacons, and their wives, William Arrowsmith and other active workers in the church, are among those who profess acceptance of Mr. Norris's views. Some of his champions were at first opposed to them.

The investigating committee is charged with bias. Rev. G. N. Johnson, D. D., of this city, is chairman of the committee. A protest is to be presented to presbytery against any action tending to the severance of the pastoral relations of Mr. Norris. Deacon Osborne has written a letter to Rev. J. P. Jordan, of Monongahela, moderator of presbytery, giving his reasons for believing that the committee is not just, testifying his love for Mr. Norris, and asserting that of others of the congregation, and declaring that if any change takes place as a result of the committee's report the Mt. Washington church will be ruined.

It is said that a great many members of the congregation who do not accept Mr. Norris's view are opposed to his removal. It is also declared that in case the pastor is deposed, many of the members of the church will leave with him, and if he consents to it they will form a new and independent church."

A Happy Occasion at the Christian Parsonage.

Miss Hazel Reed, the accomplished daughter of Professor and Mrs. O. S. Reed, was married last night to Dr. Chas. S. Hitchcock, of St. Louis, at the family residence, Woodlawn avenue and Spring streets.

The pretty home was beautifully decorated with autumn leaves, cut flowers and palms, and was filled with fully 180 members of the Christian congregation and other friends.

The bridal party took the place assigned them near the center of the parlors, the attendants being Mr. David Reed and Miss Lucille Reed, with Miss Bonnie Hartzell and Miss Louise Miller as flower girls. The wedding march was played by Mrs. Bachmann, of Noblesville, Ind. Professor Reed performed the ceremony, and immediately the happy couple were overwhelmed with congratulations.

Supper was served later, and the evening passed in a most enjoyable manner. Doctor and Mrs. Hitchcock left this morning for St. Louis, where they will in future reside. While Mrs. Hitchcock has not long been a resident of the city, she has made a great many friends, who wish her abundant happiness.

Received

within the last few days a case of children's heavy ribbed cotton fleeced underwear, cheaper than anything we have ever had to offer. Will offer it at just about one-half its real value. Will quote the prices for the different sizes, to give you an idea how very cheap it is.

| | |
|--------------------------------------|-----------|
| Size 16, vests and pants | 6c each |
| " 18, vests and pants | 9c " |
| " 20, vests and pants | 12 1/2c " |
| " 22, vests and pants | 15c " |
| " 24, vests, pants and drawers | 17c " |
| " 26, vests, pants and drawers | 19c " |
| " 28, vests, pants and drawers | 21c " |
| " 30, vests, pants and drawers | 23c " |
| " 32, vests, pants and drawers | 26c " |
| " 34, vests, pants and drawers | 30c " |

Quite a lot of this, but will not last long, once people see it and realize what a bargain it is.

Other Good Underwear Values.

Women's heavy ribbed cotton, fleeced, sizes 3, 4, 5, 6, at 49c a suit.

Better fleeced goods in white or ecru, sizes 3, 4, 5, 6, 7, 8, at 98c a suit.

Women's ribbed part wool underwear, \$1.00 a suit.

Better woolen underwear at \$2.00 a suit.

Men's heavy cotton at 50c per suit. Extra heavy fleeced fine goods at \$1.00 suit.

Men's woolen underwear at \$2.00 and \$3.00 per suit.

Boys' heavy cotton, ribbed fleeced, 50c per suit.

Lot of odds and ends in underwear at very low prices.

WRAPS.

They take precedence over other stocks just now. It is buying time with you. We have a full stock at tempting prices.

Jackets from \$2.50 to \$22.50 each.

MAYOR'S

PROCLAMATION

Relating to the Sale of Intoxicating Liquors on

ELECTION DAY

WHEREAS, The statutes of the state of Ohio provide that whoever sells or gives away any spirituous, vinous or malt liquors, on any election day, or by the keeper of a place where any such liquors are habitually sold and drank, falls on any election day to keep the same closed, shall be fined not more than one hundred dollars, and imprisoned not more than ten days; and whereas,

Tuesday, the 2d day of November, A.D. 1897,

Is such an election day; now, therefore, I, A. V. Gilbert, mayor of the city of East Liverpool, within said state, by virtue of authority vested in me by said statutes, and in compliance with the requirements thereof, do hereby warn the public concerning the provisions of said statutes as above set forth, and that all violations of the same on said day will subject the offender to speedy punishment. And all officers invested with police powers within said municipal corporation are hereby commanded to close all places where said statutory provisions are violated, and to report forthwith to me all violations thereof.

Given under my hand and official seal, at my office, in said municipal corporation, on this 28th day of October, A. D. 1897.

A. V. GILBERT, Mayor.

ORDINANCE NO. 534.

AN ORDINANCE TO IMPROVE LISBON street.

SECTION 1. Be it ordained by the Council of the City of East Liverpool (two-thirds of all the members elected thereto concurring) that the improvement of Lisbon street be proceeded with, the resolution to improve the said street, passed the ninth day of June, 1896, and the plans and specifications on file in the office of the City Engineer and under his supervision, grading the roadway and sidewalks, setting the curbs, and paving the sidewalks and doing whatever is necessary to make a complete job.

SECTION 2. That the cost and expense of the said improvement, including damages, if any, assessed in favor of any land owner, together with interest on bonds issued, shall be assessed on the lots and lands abutting and bounding on the said street, between the points called for in the resolution to improve said street, according to the law and ordinances on the subject of assessments. The assessments thereon shall be paid in installments if deferred, and the same collected as provided by law and in the assessing ordinance hereafter to be passed. Bonds will be issued in anticipation of the collection of the assessments, unless the property owners pay their assessments before the bonds are issued and within the time prescribed in the assessing ordinance. The following property is to be assessed: Lot 1498, 33 feet; lot 1494, 40 feet; lot 1495, 40 feet; lot 1496, 40 feet; lot 1497, 40 feet; lot 729, 40 feet; lot 730, 40 feet; lot 731, 40 feet; lot 732, 40 feet; lot 733, 40 feet; lot 734, 40 feet; lot 735, 40 feet; lot 736, 40 feet; lot 737, 40 feet; lot 738, 40 feet; lot 739, 48 feet; lot 823, 40 feet; lot 822, 40 feet; lot 821, 40 feet; lot 820, 40 feet; lot 819, 40 feet; lot 818, 40 feet; lot 817, 40 feet; lot 816, 40 feet; lot 815, 40 feet; lot 814, 40 feet; lot 813, 60 feet; lot 1547, 30 feet; lot 1548, 30 feet; lot 1516, 37 feet; lot 1517, 37 feet; lot 2452, 31 feet; lot 2453, 31 feet; lot 2454, 31 feet; lot 1363, 31 feet; lot 1364, 31 feet; lot 1365, 31 feet; lot 1366, 31 feet; lot 1367, 30 feet; lot 1368, 30 feet; lot 1369, 30 feet; lot 1370, 30 feet; lot 1371, 30 feet; lot 1372, 30 feet; lot 1373, 30 feet; lot 1374, 30 feet; lot 1375, 30 feet; tract of land owned by John Burford and others fronting on the north side of Lisbon street, and lying on the west side of Smith, lying on the north side of Lisbon street and bounded on the west by lot 2452, 52 feet; tract of land fronting on the north side of Lisbon street, bounded on the east by Gibbs' addition, and extending westward to a line in line with the west line of lots 1548 and 1546, 280 feet.

SECTION 3. That this ordinance shall take effect and be in force from and after its passage and legal publication.

MAYOR'S PROCLAMATION

Relating to the Sale of Intoxicating Liquors on ELECTION DAY

WHEREAS, The statutes of the state of Ohio provide that whoever sells or gives away any spirituous, vinous or malt liquors, on any election day, or being the keeper of a place where any such liquors are habitually sold and drank, fails on any election day to keep the same closed, shall be fined not more than one hundred dollars, and imprisoned not more than ten days; and whereas,

Tuesday, the 2d day of November, A.D. 1897,

Is such an election day; now, therefore, I, A. V. Gilbert, mayor of the city of East Liverpool, within said state, by virtue of authority vested in me by said statutes, and in compliance with the requirements thereof, do hereby warn the public concerning the provisions of said statutes as above set forth, and that all violations of the same on said day will subject the offender to speedy punishment. And all officers invested with police powers within said municipal corporation are hereby commanded to close all places where said statutory provisions are violated, and to report forthwith to me all violations thereof.

Given under my hand and official seal, at my office, in said municipal corporation, on this 28th day of October, A. D. 1897.

A. V. GILBERT, Mayor.

ORDINANCE NO. 534.

AN ORDINANCE TO IMPROVE LISBON street.

SECTION 1. Be it ordained by the Council of the City of East Liverpool, (two-thirds of all the members elected thereto concurring) that the improvement of Lisbon street be proceeded with, the resolution to improve the said street, passed the ninth day of June, 1890, and the plans and specifications on file in the office of the City Engineer and under his superintendence, grading the roadway and sidewalks, setting the curbs, and paving the sidewalks and doing whatever is necessary to make a complete job.

SECTION 2. That the cost and expense of the said improvement, including damages, if any, assessed in favor of any land owner, together with interest on bonds issued, shall be assessed on the lots and lands abutting and bounding on the said street, between the points called for in the resolution to improve said street, according to the law and ordinances on the subject of assessments. The assessments therefor shall be paid in installments if deferred, and the same collected as provided by law and in the assessing ordinance hereafter to be passed. Bonds will be issued in anticipation of the collection of the assessments, unless the property owners pay their assessments before the bonds are issued and within the time prescribed in the assessing ordinance. The following property is to be assessed: Lot 1483, 33 feet; lot 1494, 40 feet; lot 1495, 40 feet; lot 1496, 40 feet; lot 1497, 40 feet; lot 729, 40 feet; lot 730, 40 feet; lot 731, 40 feet; lot 732, 40 feet; lot 733, 40 feet; lot 734, 40 feet; lot 735, 40 feet; lot 736, 40 feet; lot 737, 40 feet; lot 738, 40 feet; lot 739, 43 feet; lot 823, 40 feet; lot 822, 40 feet; lot 821, 40 feet; lot 819, 40 feet; lot 818, 40 feet; lot 817, 40 feet; lot 816, 40 feet; lot 815, 40 feet; lot 814, 40 feet; lot 813, 60 feet; lot 1547, 30 feet; lot 1548, 30 feet; lot 1516, 37 feet; lot 1517, 37 feet; lot 2452, 31 feet; lot 2458, 31 feet; lot 2454, 31 feet; lot 2455, 31 feet; lot 1363, 31 feet; lot 1364, 31 feet; lot 1365, 31 feet; lot 1366, 30 feet; lot 1367, 30 feet; lot 1368, 30 feet; lot 1369, 30 feet; lot 1370, 30 feet; lot 1371, 30 feet; lot 1372, 30 feet; lot 1373, 30 feet; lot 1374, 30 feet; lot 1375, 30 feet; tract of land owned by John Burford and others fronting on the north side of Lisbon street, and lying on the west side of Sunny Side, 226 feet; tract of land owned by Smith, lying on the north side of Lisbon street and bounded on the west by lot 2452, 52 feet; tract of land fronting on the north side of Lisbon street, bounded on the east by Gibbs' addition, and extending westward to a line in line with the west line of lots 1548 and 1546, 290 feet.

SECTION 3. That this ordinance shall take effect and be in force from and after its passage and legal publication.

Passed this 26th day of October, 1897.
